Location

LogistiCenterSM at Monroe Crossing is located in the Northwest Atlanta submarket which consists of 56,056,994 square feet of industrial space. Most of these buildings are leased to a variety of light and bulk warehousing, manufacturing, distribution, e-commerce and assembly companies. Immediate corporate neighbors include: Old Dominion Freight Line, Scholastic Book Fairs, Pflug Packaging, RaceTrac Distribution Center, Doehler North America and Sanford Supermarket Equipment.

The property's location provides great access to I-75 and is less than 60 miles to the Appalachian Regional Port (Inland Port), lending direct access to the Port of Savannah. The presence of I-75 also gives industrial users access to metro Atlanta and to the Midwest.

With 810 million square feet of industrial space and counting, the Metro Atlanta market remains on solid footing. Atlanta's low business costs, abundance of labor, robust infrastructure and port access make it an important national distribution hub. Atlanta continues to benefit from fast-growing Southeastern ports such as those in Savannah, Charleston and Jacksonville.

About Dermody Properties

Dermody Properties is a privately-owned real estate investment, development and management firm that specializes in the acquisition and development of logistics real estate in strategic locations for e-commerce fulfillment centers, third-party logistics and distribution customers. Founded in 1960, Dermody Properties has invested more than \$6.2 billion of total capital across all platforms nationwide, having acquired and developed approximately 100 million square feet of logistics and industrial facilities. In addition to its corporate office in Reno, Nev., it has regional offices in northern and southern California, Atlanta, Phoenix, Seattle, Chicago, Dallas and New Jersey. For more information, visit www.Dermody.com.

About the LogistiCenterSM Brand

LogistiCenterSM is a national trademark brand, owned and developed by Dermody Properties. It represents the firm's business philosophy of developing Class A distribution facilities that meet the supply-chain requirements of the most innovative companies. All LogistiCenterSM facilities are designed to meet best practices in sustainable design and construction, and incorporate building features, such as additional clear height and extra trailer and car parking, that enable companies to execute their operations more effectively and efficiently.
